

# amino5

ACBS  GMS  PBS

## Description

### Food for special medical purposes.

MMA/PA amino5 is a powdered methionine, threonine, valine free, low isoleucine amino acid supplement

## Indications

For the dietary management of Methylmalonic Acidaemia and Propionic Acidaemia (MMA/PA) from 3 years of age.

## Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

## Preparation Guidelines

To be determined by the clinician or dietitian. May be used in the dietary management of MMA/PA in a variety of ways:

- Mixed in with protein substitute
- Added to modular feeds.
- Incorporated into other permitted food or drink.

MMA/PA amino5 (6g) = 5g PE

## IMPORTANT NOTICE

Must only be given to patients with proven MMA/PA under strict medical supervision.

Not for use as a sole source of nutrition.

Suitable from 3 years onwards

Diet must be supplemented with natural protein, water and other nutrients in prescribed quantities to supply methionine, threonine, valine, isoleucine, fluid and general nutrition requirements.

For enteral use only.
