

Vitabite™

ACBS GMS PBS

Description

Food for special medical purposes.

Vitabite™ is a low protein, chocolate flavoured bar, with fat and carbohydrate.

Indications

Vitabite is designed for the dietary management of individuals requiring a protein restricted diet from 1 year of age onwards.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Preparation Guidelines

Vitabite can be easily incorporated into the diet in a variety of ways e.g. it can be melted and used to coat permitted cakes, cereal and fruit.

Serving suggestions are available on request.

IMPORTANT NOTICE

Must only be given to patients with proven inborn errors of metabolism, liver or renal disease requiring a low protein diet. Use under medical supervision.

Suitable from 1 year onwards.

Not for use as a sole source of nutrition.

For enteral use only.
