

exploreTM5

ACBS ☒ GMS ☐ PBS ☐

Description

Food for special medical purposes.

MMA/PA exploreTM5 is an unflavoured powdered methionine, threonine and valine free*, low isoleucine protein substitute containing essential and non-essential amino acids, carbohydrate, sugar, vitamins, minerals, trace elements, arachidonic acid (ARA) and docosahexaenoic acid (DHA).

Indications

MMA/PA explore5 is for the dietary management of Methylmalonic Acidaemia / Propionic Acidaemia (MMA/PA) from 6 months to 5 years of age.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

MMA/PA explore5 (12.5g) = 5g PE

1. The daily protein substitute requirement is given as MMA/PA explore5.
2. Additional protein is provided from exchanges of natural protein, to provide restricted amino acids in controlled amounts, which is essential for growth and development.
3. Foods high in carbohydrate and fat, but low in protein, should be provided to supply the remainder of the energy.

Preparation Guidelines

MMA/PA explore5 is taken as a semi-solid spoonable consistency:

1. Add 12.5ml of cold water into a beaker.
 2. Empty the contents of the sachet into the beaker.
 3. Secure the lid and shake well for 10 seconds.
 4. Leave to stand for 2 minutes, allowing a smooth semi-solid consistency to form.
- Consume with a spoon.

Water or permitted drinks should be taken after MMA/PA explore5.

The product should be prepared immediately prior to feeding and any remaining product must be discarded if not used within 1hr.

IMPORTANT NOTICE

Must be used under strict medical supervision.

Not suitable for use as a sole source of nutrition.

Suitable from 6 months to 5 years of age.

Must only be consumed by children with proven Methylmalonic Acidaemia/
Propionic Acidaemia (MMA/PA).

Diet must be supplemented with natural protein, water and other nutrients in
prescribed quantities to supply methionine, threonine, valine, isoleucine, fluid and
general nutritional requirements.

For enteral use only.
